

College Credit Plus (CCP) General Knowledge

Student Eligibility

1. College ready students in grades 7-12 are eligible to participate. Eligibility is determined by the college/university based on state mandated college readiness standards. Additionally, students can be concurrently enrolled in more than one institution or online college/university.
2. Students can participate in summer, fall, and spring semester. If you are interested in summer semester, begin contacting your colleges immediately because summer deadlines are early. There are new laws governing student eligibility and testing; be sure to ask the colleges about their testing requirements which may have changed due to COVID-19.
3. Students should contact the college they wish to attend and speak with the CCP advisor. Next, students should inquire about requirements for admission. Lastly, after research is completed, apply to the institution.
4. Participation in CCP is completely dependent upon acceptance by the chosen institution of higher education. It is the responsibility of the student/parent to meet CCP eligibility requirements, apply for acceptance, and follow up with the college regarding next steps.
5. Students, who participated in CCP during 2020-2021 school year, must submit a new Intent to Participate form to continue participation even if they do not need to reapply for admission at the college.

Course Eligibility

1. Students must complete 15 semester hours of Level I courses prior to taking a Level II course. Students may take a Level II prior to 15 hours if they test into Level II or complete a Level I in the same subject area. The college or university has discretion. The [Crosswalk](#) provides a description of course substitutions for high school students.
2. Non-allowable courses include:
 - a. An applied course involving a one-on-one instructor
 - b. A course with fees that exceed an amount established by the chancellor
 - c. A study abroad course
 - d. A physical education course
 - e. A course with adult content and inappropriate for students under a certain age
 - f. A course that is more than a semester in length unless the course is delivered in a longer time frame on the college campus to students not participating in CCP
 - g. A course that is graded pass/fail or satisfactory/unsatisfactory rather than using letter grades, except for an internship course

- h. A remedial non college-level course
 - i. A sectarian course prohibited by the Ohio Revised Code
3. Secondary School must verify that a student is enrolled in an appropriate level course.
 4. Secondary School must include information about Levels in the information session.

7th-12th Grade Student CCP Expectations

1. Students interested in CCP must have a counseling session with a school counselor prior to participating. Your attendance at the information session can be used as the counseling session.
2. Submit Intent to Participate to using this [Intent to Participate form](#). May 1st is the deadline to submit CCP Intent form. Students who miss the May 1st deadline have a right to appeal to the building principal.
3. Students Participating in CCP must take English 9 (**rising seniors only**), English 10, Biology, Algebra I, and Geometry(**rising seniors only**) End of Course Exams even if they are enrolled in CCP. If students take the course equivalent for American History and American Government, the EOC point equivalent will be assigned according to the grade earned in the CCP course.
4. As long as the student receives a passing grade, tuition, fees, and books are covered for Ohio public colleges and universities. Ohio private colleges/universities may require the student to pay tuition at a reduced rate. Economically disadvantaged students are exempt from fees.
5. If the student plans to transfer to a new high school over the summer, it is their responsibility to notify the institution of higher education, previous secondary school and new secondary school prior to their transfer.

General Procedures

1. According to Ohio Higher Education, all Ohio public colleges and universities must participate in College Credit Plus. Students may research transfer credit opportunities by visiting The Ohio Transfer to Degree Website at <https://transfercredit.ohio.gov> .
2. CCP is considered an advanced standing program. If Option B is selected, students will receive high school and college credit in the state of Ohio. Grades earned are both reflected on the high school transcript and are included in the student's permanent college record.
3. Students cannot earn more than 120 credit hours for the duration of their eligibility in the CCP program. Also, they cannot take more than 30 credits per academic year. (Please note, WHS credits are included in the 30 credit calculation.) If the student takes more than 30 hours, it is the family's responsibility to pay for the extra credits. Family is responsible for entire cost of the class that places the student above 30 hours.
4. It is understood that the student/parent will abide by all rules and regulations set forth by the college/university without exception.
5. It is important to consider how CCP affects athletic eligibility.
6. Wyoming High School does not allow students to audit classes to take additional CCP courses.
7. Classes failed or withdrawn with an "F" will receive an "F" on the high school and college transcripts and will be computed into the high school and college GPA. If you do not receive a passing grade or if you withdraw from a class, the district may seek reimbursement for the amount of funds paid to the college on your behalf. The school district may withhold grades and credits received for high school courses taken until reimbursement has been made.
8. It is the student's responsibility to self-disclose their IEP or 504 Plan to the college/university.

The Underperforming Student

1. Underperforming students will be placed on probation according to the rules in ORC 3333-1-65.13.
2. The underperforming student is defined as a student with a cumulative grade point average lower than 2.0 in the CCP college courses.
3. The underperforming student is also one who withdraws from, or receives no credit for two or more courses in the same semester.

Things to Consider...

1. Participation in CCP does not guarantee a student will complete their freshman year of college or earn a degree earlier than their peers. University academic advising is highly encouraged to be sure you achieve your desired CCP goals. A full listing of courses is available in the college/university course catalog.
2. Remember when you are admitted to a college, you're considered a college student. You are expected to meet the course requirements in all classes. There may be fewer homework, in-class assignments, and tests. For example, your semester grade could be determined by 2 papers and 2 exams for the semester. If you struggle, contact your professor and your university CCP advisor immediately. Additionally, your CCP classes may be off-campus and you may miss high school announcements, homeroom schedules, etc. It is your responsibility to be sure you check your high school email, Canvas, and communicate with the high school CCP counselor for updates.
3. Check your college issued email regularly.
4. Transportation is not provided.
5. Do your research! Out of state and private colleges/universities may not give dual credit. They may accept your CCP courses as high school credit only. Additionally, some out of state selective colleges may be unfamiliar with CCP and may not consider it as an Advanced Standing Program. AP and IB have a nationally recognized curriculum and universal expectations. Lastly, earning CCP college credits may impact your financial aid. Please keep this in mind.
6. You will be responsible for repayment if you drop/withdraw from a course after the deadline or fail the course. A "NP" (Not Proficient/No Pass) will be entered on the Wyoming transcript as an F.
7. How will your participation in CCP affect your participation in extracurricular activities and athletics? At times, participation in CCP requires making a choice between attending the desired class or playing a sport. Also, be sure to inform your school counselor if you are planning to play college athletics. The NCAA has rigorous requirements and we want to be sure you are in compliance.

Questions related to CCP can be directed to Nikeisha Brooks (513) 206-7058.
