

How to get an Observer Pairing Code

What is an Observer? An Observer is essentially a “role” that a parent account is assigned to “observe” their student within Canvas. It will allow you to your student’s assignments and courses for example.

1. Have your student log into their Canvas account (the pairing code is retrieved from their account).
2. Once logged in, click Account > Settings.

3. Click “Pair with Observer” on the right side.

4. Copy the pairing code to use within your own Canvas Parent account and “pair” with your student as an Observer using the directions above.
