

5th & 6th Grade:

Science Resources

Discover:

[Cincinnati Museum Center Omnimax Streaming Videos](#) -

The Cincinnati Museum Center is offering Omnimax movies for free streaming on your home TV! Additionally, a lot of these are available through Amazon Prime and YouTube.

Generation Genius - [Atoms & Molecules](#), [Tectonic Plates](#),

[Energy Transfer](#) & [Waves: Wavelength & Amplitude](#): Think through what you are learning and check out the discussion questions that follow. Think of it as a 2020 version of Bill Nye!

[Live Animal Cams](#) - View nature with a bird's eye, up-close view from far away.

Do:

[Engineering At Home Activities](#) - Lots of different activities are available!

[Mystery Science lessons](#) - Make sure you click on 5th grade so you are looking at what we are learning. Start with [How does hand sanitizer kill germs?](#)

[Science Experiments](#) for when you're stuck at home. Get your parent's permission, please!

Explore:

[Brainpop](#) - Check out Brainpop for many areas of quick, bite-sized pieces of learning with Tim and Moby. Username is wyommiddle; password is cowboys

[Study Jams](#) - Study Jams is a great way to introduce yourself or review science concepts with video, slideshows, and great explanations. Click on the See all Topics and then choose what you want to learn about.
